Important Topics

Unit 1

Our respiratory system

We use our respiratory system when we breathe in air through our nose, and it goes to our lungs. In the lungs, the oxygen in the air is passed to the blood. Our heart pumps this blood around our body.

Our different senses

We have five senses. We use them to do many things. We can use our eyes to see. We can hear with our ears. We can smell with our nose. We can feel with our skin. We use our tongue to taste. All our senses are very important.

What you like to do at the weekend

Subject : What I like to do at the weekend

Dear Maged,

How are you ? At the weekend, I like to do many things. I'd like to go to the park. I can run and play there. I'd like to paint some pictures. I'd like to help mum tidy the room. I'd like to go to the club and practice football. Sometimes, I'd like to do creative things.

Yours,

Yasser

A swimming champion

Aya Ayman Abbas is one of the best swimmers. She is a swimming champion who has won a lot of medals. She has won the Egypt Cup three times. She was the first female Egyptian Paralympic swimmer in Rio in 2016. She has won a lot of gold, silver and bronze medals in different competitions.

The Paralympic Games

The Paralympic Games is an international competition. It is for athletes with disabilities. It takes place every four years like the Olympics. It is held in a different country each time. There are many Egyptian Paralympic athletes. They have taken part in different competitions. They have won many gold, silver and bronze medals.

Respiratory system

There are different systems in our body. The respiratory system is a very important system. It helps us to do many things. We use our respiratory system when we breathe. We use our nose to breathe in the air, and it goes to our lungs. In the lungs, the oxygen in the air is passed to the blood. Our heart pumps this blood around our body.

Unit 2

Reptiles

Reptiles are cold-blooded. They have to spend some time in the sun to keep warm . Most reptiles have four legs. They don't have hair or fur. They have scales. All reptiles lay eggs. Reptiles live in different places. Most of them live on land. Some reptiles live in rivers or sea such as turtles.

Animals in the world

There are many different animals in the world. Some of them are big, others are small. The biggest animal on land is the elephant. The biggest animal in the world lives in the sea. It is the blue whale. The biggest fish in the world is the whale shark. The smallest bird is the bee hummingbird. The biggest bird is the ostrich.

Insects and snails

To : fady@gmail.com
From : seif@gmail.com
Subject : Insects and snails

Dear Fady,

Do you know invertebrates ? Invertebrates are animals without a backbone. Some invertebrates have hard shell such as snails. Snails move very slowly. Insects are also invertebrates. They have six legs. Grasshoppers are the most amazing insects. They can jump very high. The spider is not an insect. It has eight legs. It is called an arachnid. Spiders can move very quickly. See you soon.

Yours,
Seif

Water lily

Water lily have brightly colored flowers and they make seeds which float on water. In addition, their roots spread under the water, and they can cover a very large area. On one hand, this can look pretty, but on the other hand, it can make it difficult for other animals and plants to live under the water.

Birds

Birds are warm - blooded, but they don't have fur. They don't have hair. All birds have feathers and they have wings, too. Most birds can fly well. They lay eggs. Their eggs are hard. Also, birds have beaks. These beaks are made of bones. The beaks are of different shapes because birds eat different food. Some birds eat meat, some eat nuts and others eat seeds.

Amphibians

To : tamer@gmail.com
From : tarek@gmail.com
Subject : Amphibians

Dear Tamer,

I want to tell you about amphibians. Amphibians can live on land and on water, but they need water or a moist habitat to survive. Like reptiles, they are cold-blooded and they lay eggs. However, amphibians, like frogs and toads, always lay their eggs in water.

Yours,
Tarek

Unit 3

My community

My community is a group of people who live and work together in our area. I live with my family in an apartment. There are many special things about my community. There are different places, ideas and activities. In our community, we can do many good things. We help each other and do many acts of kindness. We are polite and helpful.

Scribes

To : ramy@gmail.com

From : osama@gmail.com

Subject : Scribes

Dear Ramy,

How are you ? Scribes were very important in the history of Egypt. They were the people who wrote down everything that happened in the past. They worked for the ruling families or who were called dynasties. They wrote in the ancient Egypt language, hieroglyphs. They drew pictures or symbols that meant one word. They wrote on stone or on paper called papyrus. Children learnt to become a scribe at school.

Yours,

Osama

Music

Egypt has many different styles of music. It has also lots of traditional folk music. Folk musicians from Upper Egypt play Saidi music. This type of music uses string instruments such as violins and the wind instrument oboe. Singing and drumming are also famous there. In the farther south, there is the Nubian music. The Nubian music is now popular all over Egypt.

Folk dancing in Egypt

Folk dancing has a long history in Egypt. It is linked to the folk music of different areas. There are many forms of folk dancing. The most famous one is Nubian dancing. People move their arms and feet to the rhythm of the music. There is also Raqs Assaya. It is the most famous dance from the Saidi musical tradition. In other forms of dancing, people wear special costumes.

How we know about the history of Egypt

Egyptians at that time used scribes to write down everything that happened. Scribes were very important people. They wrote in hieroglyphs, which are pictures or symbols that can mean one word or many ideas. We can see these hieroglyphs today in tombs and museums.

Unit 4

Your city

I live in a city. It's densely populated. There are more than 20 million inhabitants, so it's a very busy place. There are a lot of cars so there's also congestion. If you are a pedestrian, you have to be very careful.

The village life

I live in a nice village. It is by the Nile. It is sparsely populated. Only about 600 people live in my village. My father is a farmer. He grows crops. He also raises animals. There are many services. There are shops where we can buy our needs. There is also a club. We play football there. There is also a hospital with many clever doctors.

Traditional Egyptian crafts

I visited a spinning and weaving workshop. I saw the artisans making the carpets. They spin the wool to make it into yarn after they clean it. Then, they need to dye the yarn. I like the natural vegetable dyes as they are more traditional.

Where you live

I live in a city. We have a lot of services. We have schools, hospitals and lots of shops where you can buy anything. I live with my family in an apartment in a neighborhood called Amrya. It is densely populated. My city is so beautiful. It's on the Mediterranean Sea.

Carpet making

Carpet making is a traditional Egyptian craft. To make a carpet first, they collect the wool from sheep. The artisans spin the wool to make it into yarn after they clean it. Then they need to dye the yarn using vegetable dyes or synthetic dyes. The artisans make the carpets by hand using a machine called a loom.

The city you live in

I live in a big city. This city is called Alexandria. There are about 6 million people live in my city. It is densely populated. Although it is crowded and has many people, there are many services. There are clubs, gardens and beaches. People can enjoy all these services all the time. I enjoy going to the club to practice my favorite hobbies.

Unit 5

Natural resources

Natural resources are materials that we get from nature. We use them for many different purposes. There are two main forms of natural resources. Some resources are called renewable. Renewable resources can be naturally replaced when they run out. The sun, wind and falling water are examples of them. There are also non-renewable resources. They are things that we can't get any more once we have used them up.

Your day

My day starts at 7 o'clock when I get up. I wash my face and brush my teeth. I have my breakfast with my family at home. I take the bus to my school. When I finish my school day, I go home at 3 o'clock. I have my lunch. At 4 o'clock, I do my homework. In the evening, I watch TV or play computer games. I go to bed at 9 o'clock.

Renewable energy

To : samarali@yahoo.com

From : samasami@yahoo.com

Subject : Renewable energy

Dear Samar,

I am writing to you to tell you about renewable energy. Renewable energy is from resources that will not run out. We can make electricity from renewable resources like the wind and water. We can also use sunshine in the desert to make electricity. The solar panels collect energy from the sun. We can use it to make electricity for our home because it is cheap. You can search for more information.

Yours,

Sama

Advantages and disadvantages of solar energy

Solar energy has become very important for some countries. It is the energy that we get from the sun using solar panels. It has some advantages and some disadvantages. Its advantages can be that solar panels are easy to look after. Also, the electricity from it is cheap. On the other hand, the disadvantages are that solar farms need a very big space. Solar panels are expensive and we can't make solar power on rainy days.

Unit 6

Types of transportation

There are many forms of transportation. They include planes, trains, ships, buses, cars and bikes. People use planes to travel from place to place when it is far. They use plane to transport goods too. They also use ships, but planes are faster and more comfortable. Now, there are electric trains and metros. People use cars, buses and taxis to travel around their cities.

How to create strong passwords

It is important to stay safe when we use the internet or go online. It is important to create a strong password. To do that there are many tips. Don't use your personal information like names, phone numbers or addresses. Don't use obvious words. You should use more than 10 characters. You shouldn't tell your friends your passwords. Don't use the same password for different accounts.

The Suez Canal

The Suez Canal is very important. There are many ships go through it every day. It links the whole world. In the Suez Canal, the ships move slowly. The ships have to be straight. There are many ships that carry huge containers. The captains of these ships must be clever. The Suez Canal is also important for the Egyptian people because it gives many jobs to them.

"Search online safely"

Here are some important things to keep in mind to help you search safely. Use the safe search option in your browser. When the search engine shows you your results, you will probably see some ads. You might also see the word sponsor, this means that it is also an ad. Finally, use specific words for your searches.

"Tech jobs of the future"

One of the most important tech jobs of the future is a UX Designer. User Experience Designers create a positive experience between the user and the technology that the one uses, like web pages, apps and machines like washing machines. Another important tech job is robotics engineers. They are the people who design autonomous machines. They also test the robots that they design.

Subject: A visit to the pyramids

Hi Ziad,

I am very happy to write you this e-mail. I hope everything is Ok.

Now, I'd like to tell you about my visit to the pyramids.

Last week I went on a school trip to the pyramids. I went with my classmates and teachers. The history teacher told us about the Pharaohs who built the pyramids, and he gave us interesting information about them. I saw many tourists from all over the world who were amazed when they saw the pyramids. We rode horses and camels. We had a wonderful day. I hope we can visit the pyramids together one day.

With my best wishes,

yours, Abdo.
